Attorney Docket No. 33057.1 :

This is a decision on the petition filed on March 24, 2003 by which petitioner requests that this application be accorded special status for advanced examination out of turn. The petition fee of \$130.00 has been received.

The petition is granted.

The basis for the petition is the practice set forth in MPEP § 708.02(II), Infringement. A review of the petition shows that petitioner has met all of the requirements for a petition to make special based upon the grounds of actual infringement.

Accordingly, the examiner will treat this application as special throughout its prosecution. Prior to the next action on the merits, the examiner will conduct a rigorous search for potentially interfering applications. The interference search will be brought up to date prior to each additional action.

The application is being forwarded to the Supervisory Patent Examiner of Patent Examining Art Unit 3712, who will forward the application to the examiner for action consistent with this Decision.
